

Dr. D.K. Yadava, DDG (Crop Science) visits KVK (ICAR-IIRMR) Bansur

6th May 2025, Bharatpur

Dr. D.K. Yadava, Deputy Director General (Crop Science), ICAR visited the Krishi Vigyan Kendra of ICAR-Indian Institute of Rapeseed-Mustard Research, at Bansur, Alwar, Rajasthan. Dr. Yadava appreciated the KVK's approach to addressing the issues related to farming in an inclusive way.

On this occasion Dr. Yadava interacted with farmers and shown the concerns with the challenges faced by the farmers in production of field crops, vegetables, horticultures, beekeeping, etc. He said that, ICAR will take care of farmer's problems and coordinate with concern department and agencies to address the farmers problem. He also urged to the KVK to facilitate the farmers for market access for their produces. Dr. Yadava also visited farm and other activities carried out by KVK and interacted with staff.

Dr. V. V. Singh, Director, ICAR-IIRMR welcomed to Hon'ble DDG and briefed the audience about the new innovations undertaken by the institute to address the challenges faced by the farmers in production of rapeseed-mustard crop. Dr. Singh praised KVK staff for their efforts to popularize the technologies developed by IIRMR for sustainable production of rapeseed-mustard.

Aside from KVK employees, Dr. Ashok Kumar Sharma, Dr. Bhagirath Ram, and Dr. R. S. Jat of ICAR-IIRMR, Bharatpur attended the event.

Dr. Sushil Kumar Sharma, Principal Scientist & Head, KVK expressed his gratitude for the valuable guidance and reaffirmed the KVK's commitment to serving the farming community.
